SUMMARY

Full-Stack MERN Developer with 3.5+ years of experience building scalable web and cross-platform mobile applications using React.js, Next.js, and React Native, with strong expertise in frontend development. Experienced in modern frontend architectures, backend development with Node.js, NestJS, Express.js, and MongoDB, and implementing real-time user tracking and analytics for dynamic applications. Contributed to large-scale production products through feature development, system enhancements, and performance optimization. Skilled in REST APIs, third-party integrations, and cloud deployments with AWS, Docker, and CI/CD pipelines. Adept at leveraging AI-assisted development tools (Cursor, Claude Code, ChatGPT, MCP Workflows) to accelerate delivery and build reliable, user-centric software solutions.

TECHNICAL SKILLS

Frontend Development
React.js, Next.js, TypeScript, JavaScript (ES6+), HTML, CSS, React Hooks, Tailwind CSS, Material UI (MUI), Hero UI (Next UI), Framer Motion, GSAP, TanStack Query (React Query), Performance Optimization

Mobile Development
React Native, Redux Toolkit, State Management, React Native Reanimated, App Center, App Store, Google Play Store

APIs & Integrations
Axios, SWR, Google Maps API, Real-Time Location Tracking, Geolocation APIs, OAuth 2.0, Firebase Authentication

Backend Development
Node.js, NestJS, Express.js, MongoDB, REST APIs, GraphQL (Apollo), Socket.IO, Strapi (Headless CMS)

Cloud & DevOps
AWS Amplify, AWS Lambda, Docker, Vercel, GitHub Actions, CI/CD, Firebase

Observability & Monitoring
Sentry, Grafana, Microsoft Clarity

Testing & Automation
Playwright, Appium, Detox, End-to-End Testing (E2E), Browser Automation

Development Tools
Git, GitHub, Figma

AI & Voice Agents
OpenAI, Hume AI, ElevenLabs, Pipecat, n8n Automation, Voice Agents

AI-Assisted Development
Cursor, Windsurf, Claude Code, OpenAI Codex, ChatGPT, MCP Workflows

EXPERIENCE

Obenan 03/2024 – Present
Software Engineer (2 years 1 month) Lahore, Punjab, Pakistan

- **Worked in a leading role within the engineering team**, contributing to feature planning, technical decisions, and product delivery.
- Develop and maintain a **SaaS platform using the MERN stack (MongoDB, Express.js, React.js, Node.js)**.
- Built and optimized **landing pages using Next.js** to improve performance and user experience.
- Implement new features and maintain the **core web dashboard** for product scalability and stability.
- Integrate **REST APIs and third-party services** to support product functionality.

Global Software Consulting 12/2022 – 02/2024
React Native, React.js & Next.js Developer (1 year 3 months) Lahore District, Punjab, Pakistan

- Developed **cross-platform mobile apps using React Native (iOS & Android)**.
- Built apps in **real estate, e-commerce, news, and medical domains**.
- Implemented **responsive UI and REST API integrations**.
- Improved apps through **bug fixes, feature updates, and performance optimizations**.

Global Software Consulting 09/2022 – 11/2022
React Native Internship (3 month) Lahore, Punjab, Pakistan

- Contributed to **React Native mobile applications** for iOS and Android.
- Built **mobile features and reusable UI components**.
- Gained experience with **REST APIs, debugging, and mobile development workflows**.

EDUCATION

University of Sialkot 09/2018 – 08/2022
Bachelor of Science - BS, Information Technology

PROJECTS

Obenan — AI Reputation Management Platform
Next.js, React.js, Node.js, Strapi, GraphQL APIs

- **Led full-stack development** of the **Landing Platform** and **frontend development** of the **Dashboard at Obenan**
- Developed scalable features, reusable UI components, and performance optimizations using **React.js and Next.js**.
- Managed **landing platform architecture, integrations, and deployments**.
- Improved **dashboard usability, frontend performance, and feature capabilities**.

Etihad Town — Real Estate Resident Application
React Native, Strapi, GraphQL APIs

- Developed mobile application enabling residents to access property details and financial records.
- Implemented modules for news updates, community events, and resident notifications.

Android & IOS

uDress — Mobile Marketplace Application
React Native, Node.js, REST APIs

- Developed a cross-platform mobile marketplace enabling users to buy and sell dresses.
- Implemented advanced search filters (type, size, color) for better product discovery.
- Integrated messaging functionality allowing buyers and sellers to communicate directly.

Android & IOS

Company Needs — Office Procurement Platform
React Native, Strapi, GraphQL APIs

- Developed an e-commerce style mobile application for office supply ordering.
- Implemented admin approval workflows for procurement management.
- Integrated backend APIs for product listing, order management, and delivery tracking.

Android

SenSights
React Native, REST APIs, Mobile Health Platform

- Contributed to a remote monitoring and telehealth platform designed for senior care and personal emergency response.
- Implemented mobile features enabling **health monitoring, risk screening, and real-time alerts for senior-care staff**.
- Built cross-platform mobile functionality using **React Native for Android and iOS**.

Android & iOS

Life Design — Personal Goal Tracking App
React Native, REST APIs

- Developed a cross-platform mobile application for setting, tracking, and achieving personal life goals.
- Implemented user-friendly goal management features and interactive UI for engagement.
- Built scalable mobile architecture using React Native for Android and iOS.

Android & iOS
