SUMMARY

Senior Full-Stack Developer with 5+ years of experience building scalable web applications with React.js and Next.js, and cross-platform mobile applications with React Native. Experienced in shipping MVPs, multi-tenant SaaS platforms, frontend architecture, and performance optimization, with backend expertise in Node.js, NestJS, MongoDB, and Supabase. Proven track record of integrating REST APIs and third-party services such as Stripe and RevenueCat, and deploying applications on Vercel, Render, and AWS through CI/CD pipelines. Skilled in leveraging AI-assisted development, coding agents, and LLM workflows to accelerate software delivery, improve code quality, and automate engineering tasks.

TECHNICAL SKILLS

Frontend Development React.js, Next.js, TypeScript, JavaScript (ES6+), HTML, CSS, Tailwind CSS, Material UI (MUI), Hero UI (Next UI), Framer Motion, GSAP, TanStack Query (React Query), Performance Optimization, Figma, PWA	Backend Development Node.js, NestJS, Express, MongoDB, Supabase, Postgres, REST APIs, GraphQL (Apollo), Socket.IO, Strapi (Headless CMS), Prisma AI & Voice Agents OpenAI, Hume AI, ElevenLabs, Pipecat, n8n, Voice Agents APIs & Integrations Axios, SWR, Google/Apple Maps, Real-Time Location Tracking, Offline Location Tracking, Geolocation APIs, OAuth 2.0, Firebase Authentication, Stripe, Didit SDK, Agora	Architecture & Leadership Frontend Architecture, System Design, Scalable SaaS Architecture, Component Design, Performance Optimization, Code Reviews, Technical Mentoring, Agile/Scrum AI-Assisted Development Cursor, Windsurf, Claude Code, OpenAI Codex, ChatGPT, MCP Workflows Testing & Observability Playwright, Appium, Detox, End-to-End Testing (E2E), Browser Automation, Sentry, Grafana, Microsoft Clarity
Cloud & DevOps Git, GitHub, AWS Amplify, AWS Lambda, Docker, Vercel, Render, GitHub Actions, CI/CD, Firebase Mobile Development React Native, Redux Toolkit, State Management, React Native Reanimated, App Center, App Store & Google Play Store Deployment, RevenueCat, Deep Linking, Push Notifications, Offline Storage		

EXPERIENCE

Obenan  Senior Full-Stack / AI Engineer (Frontend Lead) - Joined as a Frontend Developer and progressed to Frontend Lead, taking ownership of frontend architecture, code quality, technical decisions, and production releases across multiple SaaS products. - Led frontend development for Landing Platform (Next.js), SaaS Dashboard (React.js), and Omnipulse, while mentoring developers, conducting code reviews, and building reusable UI components to improve consistency and delivery speed. - Architected and built the Landing Platform (Next.js + Strapi) and Omnipulse frontend from scratch, while expanding into full-stack development with Node.js, NestJS, REST/GraphQL APIs, MongoDB, and PostgreSQL. - Designed and delivered scalable SaaS features, including a multi-language translation system, affiliate/referral platform, subscription workflows, and integrations with Stripe, Google/Facebook APIs, and third-party services. - Optimized application performance using SSR, image optimization, and caching strategies, consistently achieving 90–95+ Lighthouse scores and faster page load times. - Built AI-powered features using OpenAI, Hume AI, ElevenLabs, and Pipecat, including production-ready voice agent workflows. - Delivered end-to-end subscription and referral solutions supporting businesses across 100+ online directories and local SEO platforms. - Improved platform reliability using Sentry, Grafana, and Microsoft Clarity, while managing Docker, AWS, and CI/CD pipelines for reliable deployments and monitoring.	03/2024 – Present Lahore, Punjab, Pakistan
--	---

Software Engineer — React Native & Web

- Developed cross-platform mobile applications using React Native for iOS and Android across domains including real estate, e-commerce, news, and healthcare.
- Built responsive and reusable UI components, contributing to scalable mobile app architecture.
- Built advanced native features, including **audio/video calling** with WebRTC, background and foreground location tracking, and custom native modules bridging iOS and Android APIs.
- Integrated REST APIs to enable dynamic features such as authentication, data fetching, and user interactions.
- Contributed to feature development, bug fixing, and performance improvements in production applications.

PROJECTS

Obenan — AI Reputation Management Platform

Next.js, React.js, Node.js, Stripe, Strapi, GraphQL APIs, AWS, Docker, MongoDB

- AI-powered reputation management platform helping businesses manage listings, reviews, and local SEO across **100+ online directories and platforms**.
- Led full-stack development of the **Landing Platform** and frontend development of the **Dashboard** and **Omnipulse**, delivering scalable SaaS features, AI integrations, and performance optimizations.

Etihad Town — Real Estate Resident Application

React Native, Strapi, GraphQL APIs

- Mobile application enabling residents to access property information, financial records, community updates, and notifications.

Android  & iOS 

OmidLife — Spiritual Wellness & Learning Platform

Next.js, React.js, Node.js, TypeScript, PostgreSQL, Stripe

- Online spiritual wellness platform connecting users with instructors through yoga, meditation, breathwork, live masterclasses, and on-demand courses.
- Contributed to the web platform, subscription workflows, and scalable full-stack features supporting the Omid TV streaming experience.

Cohart — Social Marketplace for Art

React Native

- Social platform and marketplace enabling artists, galleries, collectors, and art enthusiasts to discover, connect, chat, and buy or sell artwork.
- Developed cross-platform React Native features, real-time interactions, and marketplace functionality for iOS and Android.

SenSights — Remote Healthcare Platform

React Native, REST APIs, Mobile Health Platform

- Remote healthcare and telemedicine platform supporting senior care through health monitoring and emergency response.

Android  & iOS 

EDUCATION

University of Sialkot

09/2018 – 08/2022

Bachelor of Science - BS, Information Technology
